Intoduction

LA'BERRYS MODELLING AGENCY SERVICES is currently known as LA'BERRYS ENERGY LIMITED both duly registered in the Corporate Affairs Commission. LA'BERRYS ENERGY LIMITED is a privately owned indigenous company focused on providing diverse services to the Oil and Gas industry in Nigeria. With services ranging from Engineering, procurement, civil work construction ,pipeline maintenance , onshore/offshore installation and fabrication, and Electrical.

We strengthen our client base by ensuring Excellence and innovation in Service delivery. We take pride in the reputation we have built with our clients, in the Oil and Gas Sector.

STRATEGY

- Strengthen client base by ensuring excellence and innovation in service delivery.
- Create and sustain relationships that guarantees superior delivery in a synergic manner.

Vision & Mission

S T A T E M E N T

Our Vision Is To Be A World Standard Leading Indigenous Engineering Company In Nigeria With Integrity For Customers, Businesses And Employees.

Our Mission Is To Establish A Flourishing And Diversified Engineering Servicing Company Of World Standard Characterized By Indigenous Professionalism, Integrity And Great Commitment To Excellence In Engineering In The Oil & Gas Sector And Other Sectors In Nigeria And Also To Serve As A Model For International Companies.

Our Mission Is To Explore And Develop On Our Service Areas With Unparalleled Commitment To Partnership And Reputation For Quality Products And Services.

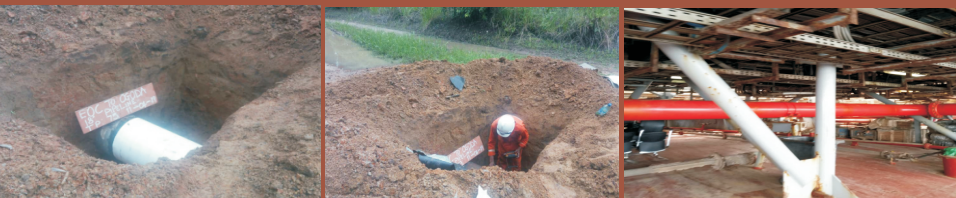

Preparation Of Conceptual Design, Feed (front End Engineering Design)
And Detail Design Work.

Piping Material Specification
Pipe Thickness Calculation
Construction Method Statement
Data Sheets And Specifications
3-d Modelling In Cad (planning To Implement Pds)
Stress Analysis Using Caesar Ii, 5.3 Version
Pipe Support Design
Spring Selection Design And Specification
Isometric, Ga Drawings And All Other Relevant Piping Drawings

Monolithic Insulation Joints
Metal Dismantling Joints
Insulating Flange Assembly
Gauge Hatches
Brass Rain Cap
Fabricated Spool Pieces
Flow Straightner

Mechanical Maintenance Services

MECHANICAL MAINTENANCE SERVICES:

Technicians carry out planned and unplanned maintenance and repairs activities on a wide range of equipment e.g pumps, engines, turbines well head.

TYPICAL DAY/ DUTIES:

- Carries out maintenance and testing activities.
- Modifies , repairs or replaces plant systems and equipment

CONSTRUCTION SERVICES: The term construction service covers a wide spectrum of tasks and responsibilities.

Below is a list of some construction services:

Civil Works And Maintenance Services

- *Architectural work (including drafting and design)*
- *Asphalt and bitumen work*
- *Assembly, installation or erection of pre-fabricated houses.*
- *Block laying*
- *Brick laying*
- *Construction and sealing roads*
- *Drainage work*
- *Earth works*

The construction services can as well be divided into four distinct parts namely:

- *Pre-construction services*
- *Construction project managements which include planning phase, execution phase, post construction phase, design-build, finally the building services.*

In the course of the building process, after completion of a project, monitoring the buildings life cycle is fundamental for its quality and well being of its residents.

Anti- Corrosion (Blasting & Painting)

Anti-Corrosion methods and material provides a broad coverage of the material and techniques involved or employed in corrosion prevention of a metal from corroding in high risk with its environment. Metal equipments lacking any preventive (anti-corrosive) measures may become rusted both inside and outside depending upon atmospheric conditions and how much of those equipments are exposed to air.

BLASTING: Blasting is the process of forcibly propelling a stream of abrasive material against a surface under high pressure to smooth a rough surface, shape a surface or remove surface contaminants. They are different categories of blasting which include:

*Wood blasting - Plastic blasting - Concrete blasting - Brush blasting
Cement blasting - Stainless steel blasting*

PAINTING: Painting is the practice of applying paints, pigment, color or the medium to a solid surface. This medium is commonly applied with a brush but other materials or equipment such as knives, sponges and air brushes can be used. It is also an important form in the visual arts, bringing elements such as drawing, gestures, composition, narration or abstraction, it also involves real life painting.

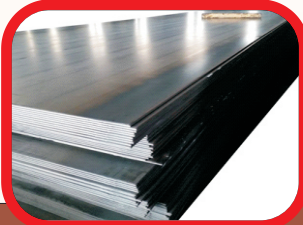

INDUSTRIAL AND COMMERCIAL INSULATION SERVICES:

The Industrial and Commercial
Insulation Services are as follows

- Maintenance, outages, turn around and new construction
- Insulation and cladding/jacketing for boilers, ducting, piping, and equipments
- Managed maintenance programs
- Off site shop facilities
- Corrosion under insulation (CUI) programs
- Hot/cold protection and personnel protection
- Standing seam panels for coke drums and tanks
- Aerogel flexible blankets

Industrial & Commercial
Insulation Services

Insulating Flange Assembly

Brass Rain Cap

Monolithic Insulation Joints
